

DreamSTATE Records is a music label from Akron, Ohio.

The foundation of our record label is quality music. With an online catalog of more than 500 songs, and a roster of artists that has climbed as high as 78 acts at one time, DreamSTATE Records emerges with a strong network and a strong plan for growth.

Hosting one of the largest databases of active and up-to-date music industry listings, we are able to plan, create, and execute very targeted and automated marketing plans with just a few clicks.

The primary function of our label is to assist artists in securing both online distribution and placement in commercials, movies, and other marketing avenues that require the use of licensable music.

Many of our artists actively travel and keep consistent routes throughout the Midwest and the Eastern coast.
